## Written on a iPod Touch

I was born to die in a statement issued by the end of the day before I get a new phone case you want me too I don't think that the future is the only thing that is a lot more fun than I thought I would be nice if I don't know how much you love it and it was the best of the day before I get a new phone case you want me too I don't think that the only one that I can get it right away with the new phone and it was the best of the best way of life.

All my life and the other hand is the only one that I can get it right away with the same thing that is the only thing that is a lot more fun and I don't know how much you love it.

My superhero origin story is the only one that is the only thing that is the only thing I don't think I have to go back and I don't think I can be the first half of the best thing to say I don't think.

My superpowers are the only one who has a lot of the day I don't think that is the only one who has a lot of the best thing.

Love you so much better if it is not the same thing to say I don't think that is a great way of the best of the year of high quality of life.

## Written on a iPad

I was born in a good day at work today so I'm going back home and then I'll probably get there a couple minutes later.

All my life has to work with me so I'm going back home to get my car and get back to work tomorrow so I'll be back in a good week and I will be back in a good day.

My superhero origin story of the film was so good and it looks amazing so far and it's amazing and amazing.

My superpowers and the best of my best friends is the one that has to do with me for a good year now I can't get my money to get my car and I will get my truck.

Love this app but it is so good to get to work and get to the next update so it can get a bit better now and it will get more work to work out.
